(Words & music by David Jones - Theodore Williams)

Soldier boy why feel blue
Don't you believe that she will be true
It's written in the book
That she was meant for only you
Soldier boy tell me why do you cry
When you return she'll rush to your side
It's written in the book
That she was meant for only you
So prove your love is true
She'll be there to say "I do"
And if you go o'er sea or land
She'll make you understand
While you're gone oh try to believe
Her love for you is really for real
It's written in the book
That she was meant for only you
So prove your love is true
She'll be there to say "I do"
And if you go o'er sea or land
She'll make you understand
While you're gone oh try to believe
Her love for you is really for real
It's written in the book
That she was meant for only you
