"Work Out"

Hey, we got a good thing
Don't know if I'ma see you again
But is that a good thing?
'Cause girl I can't be your man, no ma'am

I know what's on your brain
You're probably hoping never would end
Like is it the real thing?
Or is it just a one night stand

Let me see you get high and go low
Now girl won't you drop that thing down to the floor
I'm here for one night, how far will you go?
I wanna see you work out for me, work out for me

High and go low
Now girl won't you drop that thing down to the floor
I'm here for one night, how far will you go?
I wanna see you work out for me, work out for me

She like them bar with the big old chains
Ride around town in the big old Range
I knew her when I riding big old chains
Now the little nigga doing big old things

Would you look at that, I came back for her
Just to give it to you, like you asked for it
Man that thing in them jeans too fat for her
It rebounds so I caught it off the backboard

I told her, baby girl come here
Know I run the town even when I ain't from there
And I brag hardly but just to show up at this party I made
What your nigga make in one year, that's unfair but

So is life, take a chance roll a dice

Money can't buy you love cause it's over priced
Don't overthink just hope it's right
I'm only here for the night

Hey, we got a good thing
Don't know if I'mma see you again, see you again
But is that a good thing?
Cause girl I can't be your man, no ma'am

I know whats on your brain
You're probably hope it never would end
Like is it the real thing
Or is it just a one night stand, well then

Let me see you get high and go low
Now girl would you drop that thing down to the floor
I'm here for one night, how far will you go?
I wanna see you work out for me, work out for me

High and go low
Now girl won't you drop that thing down to the floor
I'm here for one night, how far will you go?
I wanna see you work out for me, work out for me

Carolina blue kicks, fresh on the scene
Hottest nigga on the block, damn girl you mean
They be starting shit, but it's your world
On my Martin shit, you go girl

She bad and she know it, some niggas save hos
I'm not that heroic
Could you be my escort
'Cause just like them two door Fords

Damn, they don't make 'em like you no more
Cole World, real Cole World
Them boys cool, me I'm on fire
Know whats on my mind, tryna see what's on yours tonight

Tonight, tonight
Move slow, cause you wanna live fast
Up late so you probably skip class
Life is a test so before the night pass get right, get right

Hey, we got a good thing
Don't know if I'ma see you again, see you again

But is that a good thing?
Cause girl I can't be your man, no ma'am

I know what's on your brain
You're probably hoping it never would end
Like is it the real thing
Or is just a one night stand, well then

Straight up, now tell me
Do you really wanna
Love me forever, oh, oh, oh
Or is it just a hit and run

Straight up I tell ya
I just really wanna cut
When we together, oh, oh, oh
Come here girl, lets get it on

Straight up, now tell me
Do you really wanna
Love me forever, oh, oh, oh
Or is it just a hit and run

Straight up I tell ya
I just really wanna cut
When we together, oh, oh, oh
Come here girl, lets get it on
