Yo. Look I know we been, been friends for a minute.

And I think it's time we trust the situation.

I know how you feel, You know how i feel

(oooohhh..... I need you)

But I just wanna put it out there.

Verse

I gotta say your a hell of a woman

Like a new drop in the summer

Put me over the weather when I'm under

Did you know you do that for me?

And I wonder sometimes why, you be taking your time I

I know it's gon be right,

Girl I put that one my life

You be giving me the coldest shoulder,

Cuz you don't want your emotions taking over

Steady talkin bout you looking for a soldier

Are you tryna say you don't see that in me

I know that were friends, but taking it there won't mess  
it up

Please just trust in me

Girl I got to gain the seat

Chorus

OOh... baby girl its killing me

Why you tryna act like you don't

Like you don't see what I see

You should be with --

You should be with me

It's your heart but before you give it to someone

Someone who don't deserve it

Who's gon hurt it

Baby, You should be with Me

Verse

I can see you from my favourite movie,

Hard to control myself when you next to me

If it's against the law to love you, Sue me!

Girl, this whole thing got me in disbelief

I know it takes time to build something thats  
worthwhile, but

Just in case you didn't hear me

Imma say it again more clearly

(i need you)

Like a bear needs some covers

Baby we need each other

Like a comedian needs a joke

Baby, I need you the mosstttt.....

Baby

My Hearts beating, can't you hear it?

If i'm the music, Your my lyrics

Chorus

I know your looking out for you

But you got to understand....

That i'm looking out for us too....

So baby you should just give me your heart

And i'll swear I won't tear it apart

No! .....OOOHHHH.....

Chorus 3x

OOH...Baby girl its killing me

Why you tryna act like you don't

Like you don't see what I see

You should be with --

You should be with me

It's your heart but before you give it to someone

Someone who don't deserve it

Who's gon hurt it

Baby, You should be with Me
