Mmm Mmm
Ohh Ohh
Yea Yea
Yea Yea Yea

Thinking back to the feeling that I had
When I first saw your face,
I knew that it was you.
Some time has passed
And the feelings that I had before still are the same
Cause you never changed (No)
Even though I dont show it girl
I just want you to know

That even if we fight a million times over little things
We can still make it better
I meant what I said when I gave you that promise ring,
That imma love you forever
I fall for you deeper everyday.
I feel it now girl more than ever.
But with our type of love
Forever Ain't Enough

I been searchin my whole life
I'm lucky I found you
Now that I got you, you ain't leavin cause
Forever Aint Enough

You see me for who I am
And not for who I'm not (No)
I'm tellin you that I'm sorry
If I tend to treat you the wrong way
But I care, You know my heart is there
Even though I dont show it girl
I just want you to know (That even if we fight)

That even if we fight a million times over little things
We can still make it better
I meant what I said when I gave you that promise ring,
That imma love you forever
I fall for you deeper everyday.

I feel it now girl more than ever.
But with our type of love
Forever Ain't Enough

I been searchin my whole life
I'm lucky I found you
Now that I got you, you ain't leavin cause
Forever Aint Enough

Forever Aint Enough (Forever Ain't Enough) (4x's)
It ain't enough

That even if we fight a million times over little things
We can still make it better
I meant what I said when I gave you that promise ring,
That imma love you forever
I fall for you deeper everyday.
Feel it now girl more than ever.
With our type of love
Forever Ain't Enough

I been searchin my whole life
I'm lucky I found you
Forever Aint Enough
Ain't Enough
Ain't Enough
