"I Hear Voices"

Oh come around away with me
See coloured worlds and fantasy
So lost in love wi'll have some fun
When flying off reality

Now all the worlds you're whispering
Are going through eternity
So if you want to stay with me
Believ is what you need to feel

Baby bring me to you
And now when this dreams comes true
Uuuuuuuh

The loudness of the voice is clear
Real nature of our destiny
Will bring us to the highest place
So you can always find me there

And all those things you lost inside
Will come and keep you still alive
So baby please beleive in me
Cause faith is what you need to see
I've got to be so close to you
And now when this dream comes true

I hear voices es es
I hear voices es es
I hear voices es es
