When any-body goes in
When any-body goes out
I'll be watching you from the top floor of my house

When any-body goes in
When any-body goes out
I'll be watching you from the top floor of my house

When any-body goes in
When any-body comes out
I'll be watching you from the top floor of my house

I give too much away
I get so little back
I give too much away
And I get so little back

I feel ten times myself
One to ten in no time at all
I feel ten times myself
One to ten in no time at all

Although your soul is so raw
I don't think your soul can get sore
Stand up bitch get louder
than you have ever been

Imagine yourself as so tall
Your school tried to pound you down small
Stand up fake believer
You're bigger than you thought

I give too much away
I get so little back
I give too much away
I get so little back

Feel ten times myself
One to ten in no time at all
Will ya feel ten times myself
One to ten in no time at all.

It's an insight
Alone I'm feeling
When I see a blood red sun
Decending on me

It's an insight
Alone im feeling
When I see a golden red sun
Just leaving

It's an insight
Alone I'm feeling
When I see a blood red sun
Decending...

It's an insight
Alone I'm feeling
When I see a blood red sun
Descend I know that

I give too much away
I get so little back
I give too much away
And I get so little back
Feel ten times myself
One to ten in no time at all

Yeah do ya feel ten times yourself
One to ten in no time at all.
Yeah I can feel ten times myself
