Here it comes, you better use it  
Your gonna need her when you least expect it.  
Money runs, what do you spend it on.  
You are too busy just to take what you need.  
This heart could heal, if you had the courage just to say  
what you feel.

Speak mother tongue. You're gonna come, into the fold  
where we all feel good.  
Did you want advice for love and life, well this was all  
we knew.  
We visit here but once my love now, what you gonna  
do?

Here it comes, i better use it.  
I think of nothing as i'm spinning on an axis.  
In place. Do you dedicate. Oh my mood will always turn.  
And sweeter skin. There's never been, why i just made  
you out of my subconscious.

Speak mother tongue. You're gonna come into the fold  
whre we all feel good.  
Did you want advice for love and life, well this was all  
we knew.  
We visit here but once my love, no what you gonna do.

Here it comes, you better use it.  
Your gonna need her when you least expect it. Money  
runs, what do you spend it on.  
You are too busy just to take what you need.  
This heart could heal, if you had courage just to say  
what you feel.

Speak mother tongue. You're gonna come, into the fold  
where we all feel good.  
Did you want advice for love and life, well this was all  
we knew.
