Oh babe I wonder why you set me free
Your love is tender like a lovely melody
Don't find another. It will never be the same
Don't say it's over, let me try with you again
Honey stay with me. Your love is like a mystery
I don't wanna break your heart again
Please don't take your love away

Baby let me take your love
Oh baby I just need your love
Everyday the beat of my heart is near me
Baby please don't go. Baby let me take your love
Oh baby I just need your love
Night and day it's you that I'm dreaming of baby
Take a place in my heart and my soul

It's not so easy to find the best in me
I know you miss me. Love is like a mystery
I'm not a liar and my heart is not insane
You're my desire, let me tell you once again
Honey stay with me. I try to play your melody
I don't wanna break your heart again
Please don't take your love away
