

Guess Who, The "Found Her In A Star"

Visit "[Found Her In A Star](#)" on MotoLyrics.com

If I could find the road I'm looking for some day then
I'd be happy
And I'd be thankful to the person on my own
For showing me the way
That I could walk between the right and wrong roads
And I'd be thankful to the person on my own

Times I would wonder where I was bound
I'd look to the future by turning around
By turning around

I found her in a star
I didn't have to look very far but I know now
I found her in a star
I didn't have to look very far but I'm sure now

If I find the road I'm looking for some day then I'll be
happy
And I'll be thankful to the person on my own
For showing me the way that I could walk
Between the right and wrong roads and I'll be thankful
to the person on my own

I found her in a star
I didn't have to look very far but I know now
I found her in a star
I didn't have to look very far but I'm sure now

I found her in a star
