

Guess Who, The "Glace Bay Blues"

Visit "[Glace Bay Blues](#)" on MotoLyrics.com

When you're blue, coming unglued
Don't be late
Just make a date
To call me

So you're down
But don't frown
Look around
You're still alone
So call me

I got creases in my pants
From sitting around
And I hear they got a good band up from town
Glace Bay is where it's happening so fine
We'll go down and smoke our last dime
Dancing to music and beat the time

So don't care
It's time we shared
A lip to chew
By listening to each other

I got creases in my pants
From sitting around
And I hear they got a good band up from town
Glace Bay is where it's happening so fine
We'll go down and smoke our last dime
Dancing to music and beat the time

So don't care
It's time we shared
A lip to chew
By listening to each other
