So I packed my bags and I said I'm goin' away
Out of Toronto on the next flight I was gone
And it felt so good when I called my folks
But nothing like it felt to be alone

Lost and found town
You look so good to me
Lost and found town
You're all I'll ever see

Now I'm writin' songs for a rock and roll band
Seein' places, people from a different stand
Countin' my time
And it's still the feeling of being alone

Lost and found town
You look so good to me
Lost and found town
You're all I'll ever see
