If i was close to you
Like never before
It's like we're (...)
Straight into your heart
Now i would span accross this universe
Divide two seprate worlds
Cause your the only one
That pulls me down to earth

Is it the way that it is
Or just the space that I'm in
It's got me jumping straight into a black hole
To find a place i could live, where we could both coexist
You got me wondering will i burn or implode

It wasn't long ago
You fell into my arms
It was the distance grove
That pulled us both apart
Now i will do my best to make this work, play the other
part
Maybe a telescope
Find our beating hearts

Is this the way that it is
Or just the space that I'm in
It's got me jumping straight into a black hole
To find a place i could live, where we could both coexist
You got me wondering will i burn or implode

Is this the way that it is
It's got me jumping straight into a black hole
To find a place i could live, where we could both coexist
You got me wondering will i burn or implode

It sent a shockwave through our atmosphere
It sent a shockwave through our atmosphere

Maybe a telescope
Find our beating hearts

Is this the way that it is

Or just the space that I'm in
It's got me jumping straight into a black hole
To find a place i could live, where we could both coexist
You got me wondering will i burn or implode

Is this the way that it is
It's got me jumping straight into a black hole
To find a place i could live, where we could both coexist
You got me wondering will i burn or implode
You got me wondering will i burn or implode
