is it enough  
to believe that you are real  
sometimes it gets tough  
believing in myself

well is it just me  
it could be that i'm always wrong  
i hear it in my head  
twisting and lies  
till we're sure i'm wrong  
but i forget  
how you broke my heart  
or how you find yourself  
untimely falling for someone else dear  
and every time  
something like this happens  
you always make it seem  
like i did something wrong to you  
well guess what  
i can't do this anymore  
so next time  
you're thinking about telling me  
what i do wrong  
think about  
all i let myself  
forget

why can't you  
have me  
and be happy  
at the same time
