Can I say I miss you for lack to obtain.
Oh just a few good reasons to keep this interesting,
But again I lack in social skills.
So can I say I need you for planning my next trip.
Oh on a guilt vacation. I feel sorry for it.

But again, it's not the first time thought i was losing
what was mine.
I won't wait for a reason,
I'm taking over and back what is mine.
I won't wait forever.

Can I say I want you. it's a quarter to ten.
For so many reasons, I hate to turn to this.

But again, it's not the first time thought i was losing
what was mine.
I won't wait for a reason,
I'm taking over and back what is mine.
I won't wait forever.

But again, it's not the first time thought i was losing
what was mine.
I won't wait for a reason,
I'm taking over and back what is mine.
I won't wait forever.
