It's a rainy night  
So take this down to get it right  
The drops hit cold and hard  
But around the noise we're good

You're on your way, you're goin' strong  
As for now we're just along  
You're on your way, you're big, you're strong  
As for me I hope I'm wrong

It's so loud it hurts sometimes  
It's getting faster every night  
I'd like to single out  
Every smack against my head

You're on your way, you're goin' strong  
As for now we're just along  
You're on your way, you're big, you're strong  
As for me I hope I'm wrong  
It's coming out  
I wait for this for my enjoyment  
Never let go  
All the things you say to me  
But when you have to go  
For everything you'll have to be  
I'll never let go  
To all the things you say  
I will not go  
I will not go

You're on your way, you're goin' strong  
As for now we're just along  
You're on your way, you're big, you're strong  
As for me I hope I'm wrong
