It's a rainy night
So take this down to get it right
The drops hit cold and hard
But around the noise we're good

[Chorus:]

You're on your way, you're going strong
As for now we're just along
You're on your way, you're big, you're strong
As for me I hope I'm wrong

It's so loud it hurts sometimes
It's getting faster every night
I'd like to single out
Every smack against my head

[Chorus]

It's coming out
I wait for this for my enjoyment

Never let go
All the things you say to me
But when you have to go
For everything you'll have to be
I'll never let go
To all the things you say
I will not go
I will not go

[Chorus]
