It caught us by surprise
It always waits
'Til the timing is right
'Til we're sure that we can be safe
Well here's a surprise for my fate
You know I'm gonna give up
(You know I'm gonna give up)
And you know who I date

And we've come so far (on useless space)
On useless space
Out of everyone everywhere,
We can say we've found our own way

So you like to say surprise
I know you always wait
'Til you find a way to buy some time
But plans always kept you away
But now you're finally here
I was just gonna go on my own
I didn't even get your name
Take a seat, make yourself at home

We've come so far (on useless space)
On useless space
Out of everyone everywhere,
We can say we've found our own way
(2x)
