Is it enough
To believe that you are real
Sometimes it gets tough
Believing in myself
Is it just me
It could be that I'm always wrong
I hear it in my head
Twisting and lies
That were sure I'm wrong
But I forget
How you broke my heart
Or how you find yourself
Don't find me falling for someone else dear
And everytime
Some thing like this happens
You always make it seem like I did something wrong
To me
Well guess what
I cant do this anymore
So next time
Your thinking about telling me what i do wrong
think about all i let myslef
forget
Why cant you have me
and be happy with yourself sometime
