Girl, what have I done?
For you to mistreat me this way
I've been left out of everything
Each and every way

Chorus:
I'm just an outcast
Don't know how long our love to last
Lord when will it be over
Baby, come on and help me discover

I'm just a young man
Trying to do my very best
But all my girl gives me unhappiness

Chorus

Another come a day
When you will come to me and say
That you want me to stay by your side
To love and keep you satisfied

Chorus
