[Intro: Ice-T conversating with his daughter] [Ice-T]
Baby, I wanna let you know I really like how this is going
down [Daugh] Yeah, I like how it's going down too,
daddy! [Ice-T] Though we can make big moves, baby I
know, real big moves.. [Daugh] Ummm.. just tell me
what I gotta do and I'm down for whatever! [Chorus:
Corte X2] Girl, if you do what I tell you to You can have
this whole world if you wanted to Buddy, it ain't going
to be easy Just listen to a player, and please believe
me! [Verse One: Ice-T] Let's start this off with facts You
got on some nice shoes but you walk in it You got on
nice coat but you're outside it Now, if you're ready to
accept that state you was made in upgrade Hiding up
your game in form I can let you come over here with
me and get real real warm They say: if you knew
better, you'll choose better And you think wrong, you
think wrong You can't swing a slow batter the fast pitch
The problem with most of you women, y'all so used to
loosing You can't even figure out what you want Now
first, we gotta let you know everything If you did - you'll
be living on the side of the mountains Somewhere in
Seattle like Bill Gates And I don't know everything that's
true But I definitely do know more than you One thing is
you got style, cause you quote my eye Two is you got
class, that's what makes you fly Three is you're
intelligent cause you're listening to me talk And four is
you're very very sexy, you can see that in the way you
walk But all that ain't work nothing if you don't get it
together and move something Now, this game is
played in ones and twos, that means soloists and
crews And that's exactly what I'm trying to do, is team
up with you But you have to learn how to take some
instructions, boo Please believe this, and listen to me
[Chorus: Corte X2] [Verse Two: Smoothe Da Hustler]
Alright, baby look.. I can see you harmonious cause
your rent is more than my mortgage So it's obvious you
ain't got enough left to pay attention But I.. I'ma renew
your lease for a small fee Then we gonna
psychologically house-shop So you can have some
space for that brain of yours Consider me Real Estate
Now, I can't front, you're fly And you're hanging around

me for some reason so I must be the shelter They say:
conversation is like a combination So I'ma open that
safe, take a turn at it You want-a dime, yeah, you want-
a dime But your nigga paint you a picture How much
cents do that make? Alright then.. now, what you
should do is grow some hands on that forehead of
yours So you can hold that thought I see you used to
get in your way that's why you go on the wrong
direction You need a RUN D.M.C. and 'Walk This Way'
Don't you need two pilots to fly the plane? But only one
get to hold the steering wheel, baby So sit back, relax
your ass, cause you're flying first class And this going
to be a smooth ride, baby, and please believe me
[Chorus: Corte X2] [Verse Three: Ice-T] Now, I'ma give
you the real deal I'm going to need at least two more
inches on them heels And that gut made up cool to
you, but I'ma ask you for a stirrup or two And as for
your hair.. I ain't even going to go there Just keep it
clean and tight, and would be alright Overall.. I think
you're fine And I'm sure I can buck out the dime And
this is going to take a little time First, you got to forget
everything you know Cause right now.. You're on a real
course to becoming a real motherfucking whore Now,
that's cool too.. But at least let me show you how to be a
motherfucking pro Cause it ain't going to be all fun If
you're fucking with me, you better duck or run This is
final level of the game baby And it ain't going to be all
biscuits and gravy You got to have a nerve, for the
motherfucking curve Cause we can do it either way,
baby The street way, or the corporate sweet way But no
matter how me and you do it, girl It would definitely..
be the elite way [Interlude: Ice-T and his daughter
conversation continues] [Daugh] Awww! you know, I'm
down, baby [Ice-T] That's what I'm talking about
[Daugh] Ha ha ha ha! [Ice-T] Yeah, I know you like it
when I see you smiling.. [Daugh] Ha ha ha ha ha! [Ice-
T] Yeah girl, I see you're feeling this right.. [Chorus:
Corte X2]
