Don't stop to catch your breath  
You do and then you're dead  
Embrace your pain and your fear  
We don't train to be merciful here  
Their manufacturing of crime is on the rise  
Never admitting they want you to close your eyes  
Watch what you do and what you say  
Still, you're gonna disappear some day  
I don't need a big brother I'm the oldest child  
Won't keep quiet, have a coke and a fucking smile  
I know what you do you've been doing it for years  
Giving us our fears, taking everythin but our tears  
Forget your fate, its the same as your parents  
Same as your car, and thats planned obsolescence  
If you're not worth it your life's already spent  
Save the rich, fuck the other 90%  
No time for thrills  
Swallow your American Pill  
Erase what you think you know  
Their version of our history is never gonna fucking hold  
Confusing what you see and hear is their way to  
threaten  
Truth is crippled and cannot be used as a weapon  
Brainwash the homeland with false-flag intimidation  
Military creeping into every other foreign nation  
North American union soon, no borders, freedom or  
salvation  
Dilute every fucking culture, then reduce the population  
You're gonna be exterminated very soon  
The government is selling this idea to you  
They'll bring you to your knees and you'll love it too (2x)  
You won't even know just what you've lost  
Brain candy's the gain, your memory's the loss  
Abandoning your own in the name of false progress  
The world to them is a mass grave  
What the fuck is coming next?  
You're gonna be exterminated very soon  
The government is selling this idea to you  
They'll bring you to your knees and you'll love it too  
They think they can get away with this  
Rome all over again, but this time with a twist

China and Russia are probably getting pissed  
Don't get me wrong, I love America  
So keep me off the blacklist
