"Each To Each"

Cold outside-
Long after dark
You'll find a stone in your heart
Come 'round
Let's stand together
We'll fall, or
We'll rise
You and I
In secret style
Awaiting all
For thee-

You bet your life-

Come down
Slow and easy
You'll find your way
You 'll find a way
Deny-
The world will follow you
I know you'll rise
I know you'll rise

A secret sound
And it won't go away
Your secret style
And it won't go away

And it's right inside of me
And it's right inside of me

Come 'round
Let's stand together
We rise
Alone forever
Demonized-
In secret style
They're waiting up for me-
