Forcing this virgin to suck my cock, Ramming it down
her fucking throat,
Gags on the impact of my meat, Puke for lubrication
until I cum,
Gorging on my bile covered prick. The back of her
throat is where it goes.
Here I cum, open wide, Gurgle my filth you fucking
whore. Her semen filled mouth
looks so gorgeous to me, Spilling from her precious
lips, she spreads cum across her tits.
The expression on her face shows me of her
innocence, It makes no difference to me
either way she will die. Take her face, and bash it
against my knee.
Skull cracked evenly, I spread it apart, Place my cock
between her freshly separated skull.
The warmth of her open face, causes me to ejaculate.
Finishing my sexual deed
her corpse lies dead - gathering flies. Succumbing to
me, the sweet little cunt died for me.
Retched have I become, mangling virgins to satisfy my
sexual urge.
