To our elders who teach us of our creation and our past  
so we may preserve mother Earth for ancestors yet to  
come... WE ARE THE LAND!

This is dedicated to our relatives before us, thousands  
of years ago and to the 150 millions who were  
exterminated across the western hemisphere, In the  
first 400 years... starting in 1492.

To those who have kept their homelands  
And to the nation extinct due to mass slaughter,  
slavery, deportations, and disease unknown to them  
And to the ones who are subjected to the same  
treatment today  
To the ones who survived the relocations and the ones  
who died along the way  
To those that carried on traditions and lived strong  
among their people

To those who left their communities by force or by  
choice and through generations no longer know who  
they are.

To those who search and never find. To those that turn  
away the so called non-accepted.  
To those that bring us together and those living  
outside... keeping touch, the voice for many.

To those that make it back to live and fight the  
struggles of their people, to those that give up and  
those that do not care.

To those who abuse themselves and others and those  
who revive again.  
To those who are physically, mentally, or spiritually  
incapable by accident or by birth.

To those who seek strength in our spirituality and ways  
of life and those who exploit it, even our own.

To those who fall for the lies and join the dividing lines

that keep us fighting amongst each other.

To the outsiders who step in, good or bad and those of us who don't know better.

To the leaders and prisoners of war, politics, crime, race and religion... innocent or guilty.

To the young, the old, the living and the dead.

To our brothers and sisters and all living things across mother Earth and her beauty we've destroyed... and deny the honor that the creator has given each individual. The tRuTh that lies in our hearts...

All my relations.
