"People You Love"

Visit "[People You Love](#)" on MotoLyrics.com

The people you love pass on
But they're not gone.
The ones you love
Stay by your side
They watch, they pray, they show us the way
Everyday, they bring heaven closer to me and you

The people we love go back home
Still, they're not alone
Somehow they're with us
For love never dies
They watch, they pray, they show us the way
Everyday, they bring heaven closer to me and you

The people we love grow old and die
But death can't deny
The love that's eternal
Inside their hearts
They watch, they pray, they show us the way
Everyday, they bring heaven closer to me and you
