I'm feeling yummy head to toe
You see me
Ain't got no patience so let's go
You see me
Look, I'm tired of drama
Wanna spend the night
Don't bring pajamas
Man there's so much heat beneath these clothes
You see me

Walk in the place
They know my face
Hardcore sophomore
Only one solo I swore (Come on)
Big mouth applause
Oh please one more
Wanna hear it before I saw nah
Let me check my itinerary
Mmmm alright
Presto skin tight
Escaped and I risked my life
For what so I can watch them bite

Only one Gwen you can find like this
I mean blow your mind like this
Your key won't shine like this
If its yours then you know
It won't wind like this
(Wind it up)

I'm feeling yummy head to toe
You see me
Ain't got no patience so let's go
You see me
Look, I'm tired of drama
Wanna spend the night
Don't bring pajamas
Man there's so much heat beneath these clothes
You see me

I know you've been waiting

But I've been off making babies
And like a chef making donuts and pastries
Its time to make you sweat
Sex and sugar is the flavor
Ovens and beaters and graters
Beats made of bongos and shakers
It's time to make you sweat

(Come on)
Walk in the place
They know my face
Billionaire boys
Ice cream dripping cross the floor
Big house garage
Bentleys Farrar
Wanna go before I say nah
Let me check my itinerary
Mmm alright
G-four G-flight
Bed in the back so I have a G night
Good night hood right

Ain't no nigga you can find like this
I mean blow your mind like this
Nigga watch don't shine like this
If it's ticking then it don't tell time like this

I'm feeling yummy head to toe
You see me
Ain't got no patience so let's go
You see me
Look I'm diet drama
Wanna spend the night
Don't bring pajamas
Man there's so much heat beneath these clothes
You see me

I know you've been waiting
But I've been off making babies
And like a chef making donuts and pastries
Its time to make you sweat
Sex and sugar is the flavor
Ovens and beaters and graters
Beats made of bongos and shakers
Its time to make you sweat

Now sweat baby
Get stupid jump up go crazy
LAMB in 3D
Worldwide across your TV
P you crazy

How'd you get this
This sounds like disco tetris
Do I have time to connect this
Let me check my itinerary
Mmm
I came back for my spotlight
(For her spotlight)
I disappeared like Houdini
(Where's Houdini)
If yours didn't come out right
(If it's not right)
Go to Kinko's and Xerox me

I'm feeling yummy head to toe
You see me
Ain't got no patience so let's go
You see me
Look, I'm tired of drama
Wanna spend the night
Don't bring pajamas
Man there's so much heat beneath these clothes
You see me

I'm feeling yummy head to toe
You see me
Ain't got no patience so let's go
You see me
Look I'm diet drama
Wanna spend the night
Don't bring pajamas
Man there's so much heat beneath these clothes
You see me

I know you've been waiting
But I've been off making babies
And like a chef making donuts and pastries
Its time to make you sweat
Sex and sugar is the flavor
Ovens and beaters and graters
Beats made of bongos and shakers
Its time to make you sweat
(Sweat, sweat, sweat...)
