You saw me climbing out the window
You saw me climbing up the walls
And I believe it 'cos You say so
Who got the meaning of it all?

I think I'm choking on a wishbone
Of all the things I never got
And I believe it 'cos You say so
You got the meaning of it all

Yeah, who got the meaning of it all?
Who got the meaning of it all?
You got the meaning of it all

You hear us screamin' from the rooftops
You see us walking in Your door
We don't know what it is to make it
But we think You've got something more

That everybody's on their own now
Nobody's fixing all the wrong
But I believe it 'cos you say so
You got the meaning of it all

Yeah, who got the meaning of it all?
Who got the meaning of it all?
You got the meaning of it all

Yeah, who got the meaning of it all?
Who got the meaning of it all?
You got the meaning of it all

Who got the meaning of it all?
You got the meaning of it all
Who got the meaning of it all?
You got the meaning of it all
You got the meaning of it all
You got the meaning of it all
