"Experiencia Religiosa"

Un poco de ti para sobrevivir
Esta noche ue viene fria y sola
Un aire de extasis en la ventana
Para vestirme de fiesta y ceremonia

Cada vez que estoy contigo
Yo descubro el infinito
Tiembla el suelo
La noche se ilumina
El silencio se vuelve melodia

Y es casi un
experiencia religiosa
Sentir que resucito si me tocas
Subir al firmamento prendido de tu
cuerpo
es un experiencia religiosa

Casi una experiencia religiosa
Contigo cada instante en cada cosa
Besar la boca tuya merece
un aleluya
Es una experiencia religiosa

Vuelve pronto mi amor
te necesito ya
Porque esta noche tan honda
me da miedo
Necesito la musica de tu alegria
Para callar los demonios que
llevo dentro

Cada vez que estoy contigo
Yo descubro el infinito
Tiembla el suelo
La noche se ilumina
El silencio se vuelve melodia

Y es casi un
experiencia religiosa
Sentir que resucito si me tocas

Subir al firmamento prendido de tu
cuerpo
es un experiencia religiosa

Casi una experiencia religiosa
Contigo cada instante
en cada cosa
Besar la boca tuya merece
un aleluya
Es una experiencia religiosa

Y es casi un
experiencia religiosa
Sentir que resucito si me tocas
Subir al firmamento
prendido de tu cuerpo
Es un experiencia religiosa

Casi una experiencia religiosa
Contigo cada instante en cada cosa
Besar la boca tuya
merece un aleluya
Es una experiencia religiosa

Religious Experience

A little of you to survive
this night that came cold and lonely
An air of extacy in the window to
cover me in festivity and ceremony

Each time I'm with you
I discover the infinite
I touch the sky
the night illuminates
the silence returns a melody

And it's almost a
religious experience
To feel that I'm revived if you touch me
To rise to the heavens caught
by your body
It's a religious experience

Almost a religious experience
With you in ever instant in everything
To kiss your lips is worthy
of a halleluya
It's a religious experience

Hurry to return my love,
I need you now
Because this night so deep,
scares me
I need the music of your happiness
to calm the demons that I carry
inside

Each time I'm with you
I discover the infinite
I touch the sky
the night illuminates
the silence returns a melody

And it's almost a
religious experience
To feel that I'm revived if you touch me
To rise to the heavens
caught by your body
It's a religious experience

Almost a religious experience
With you in ever instant
in everything
To kiss your lips is worthy
of a halleluya
It's a religious experience

And it's almost a
religious experience
To feel that I'm revived if you touch me
To rise to the heavens
caught by your body
It's a religious experience

Almost a religious experience
With you in ever instant in everything
To kiss your lips is
worthy of a halleluya
It's a religious experience
