Well, gather around now, you boys and listen to the  
man  
He says we've fought divided but united we will stand  
We'll sacrifice the older ones, they're living in the past  
We'll burn up their religions and we'll all be free at last

We'll put a hat upon his head and then we'll call him  
God  
And then we'll share our health in him like peas do in a  
pod  
This is the story of a man with a future in his head  
But no one ever listens to him when he's dead

We're all getting older  
The light is on and bolder  
We're all getting older, decay

We'll follow him throughout the land obeying his  
command  
We'll dance a sort of hatred that we think we  
understand  
The children came a-running from their houses of  
decay  
And laid the trust upon a fool who found a better way

He preach the words of wisdom with his hands and with  
his mouth  
Then everyone believed him and then he believed  
himself  
This is the story of a man with a future in his head  
But no one ever listens to him when he's dead

We're all getting older  
The light is on and bolder  
We're all getting older, decay

This morning I had another talk  
With the German chancellor, Herr Hitler  
Here is the paper which bears  
His name upon it as well as mine

We regard the agreement signed last night  
As symbolic of the desire of our two peoples  
Never to go to war with one another again

We're all getting older  
The light is on and bolder  
We're all getting older, decay

The year had come and gone and everyone began to  
see  
Why did we follow such a fool in such a mindless way?  
Let's turn our hatred to this man, we know he's just a  
fraud  
We crucify him with the rest and find another God

How many times have you heard someone is coming  
here to say  
That from your hell on earth that you will love until your  
grave  
This is the story of a man with nothing in his head  
And no one's gonna listen to you when you're dead

We're all getting older  
The light is on and bolder  
We're all getting older  
We're all getting older

We're all getting older  
We're all getting older  
We're all getting older  
We're all getting older  
We're all getting older
