I'm going out on the streets and I'm feeling high  
But you want to fight me and I don't know why  
Yeah I wanna get dirty all covered in mud  
But you turn on me, all I see is blood  
Well let's break the law here tonight  
Tonight, tonight  
You wanna lock me up and throw away my key

I'm out with my lads and I'm feeling mean  
Well we ain't that good, and we ain't that clean  
We don't really care if you're black or white  
We're doing now until it's light

Well let's break the law here tonight  
Tonight, tonight  
They wanna lock me up and throw away my key

Well let's break the law tonight  
We'll give 'em one more tonight  
We'll settle an old score tonight  
And we'll break the law here tonight  
Tonight, tonight  
They wanna lock me up and throw away my key

I'm out on the streets and I'm feeling high  
But you wanna fight me and I don't know why  
Yeah I wanna get dirty all covered in mud  
But you turn on me, all I see is blood

Well let's break the law here tonight  
Tonight, tonight

They wanna lock me up and throw away my key  
They wanna lock me up and throw away my key  
They wanna lock me up and throw away my key  
Tonight
