{\*Debi Nova harmonizing\*} [Illa J] Yeah uhh, yeah  
Listen to this, and tell me what it sounds like Uhh...  
stimulating soundbytes While I seize firmly those hips  
Movin closer and closer to those lips I hear you shout  
my name While the blood runs through my veins, it's  
inherited Musicality to help sooth your pains With a  
perfect composition, that we've arranged There is no  
competition, when it comes to me and you Makin love,  
for sendin me this angel There's someone I've gotta  
thank above For this uniquely distinctly ace of love  
Unselfish benevolent, patient love How you arouse my  
senses It's flawless, you finish my sentences With a  
finger to my lips - shhhhhh I can't explain how much I  
love this [Chorus: Debi Nova] Music makin love and  
harmony La mentally and your energy Sounds like  
sweetened soul sounds like Ba-da-dah-oooh-ahhh  
Through the night, whisperin in my ear With sweet  
thoughts softly we want to hear Sounds like sweetened  
soul sounds like Ba-da-dah-oooh-ahhh [Illa J] Yeah  
check it, uhh, yeah My favorite sound is the sound of  
strong affection Your warm attachment, your body's  
contactin I know you feel the excitement of these  
compassionate actions us love birds get involved in  
And if we have a problem, we speak face to face start  
solvin This relationship I put my all into You, extending  
intensely inside You just fill me with pride It's so hard  
for me to hide the sensibilities that you hear in these  
melodies That's a gift, to help us to make that  
emotional shift into another galaxy, uhh Our souls  
harmonize in my mind Sexual, musical, over tones,  
overload in my hard drive, while I share my life with  
you And tonight let's do what we like to do every night  
[Chorus] - 2X Ba-da-dah-oooh-ahhh Ba, ba-da-dah-  
oooh-ee-ahhh [Illa J] I'm sittin here Tryin to think of  
what to say In space, it's just the music, it speaks for  
itself That's all I gotta say Jay Dee, Debi Nova, Illa J  
Peace~!
