I'm feelin' somethin' all around  
I feel it everywhere  
I don't know what it is that I'm feelin'  
Must be something in the air

I'm feelin' somethin' from underground  
I feel it everywhere  
I don't know what it is that I'm feelin'  
I feel it everywhere

Alone, when we're not alone

I'm in the same bus on the way to the same show  
It's the same thing everywhere  
I don't know what it is that I'm feelin'  
Must be something in the air

Alone when we're not alone

I never really thought  
That I'd be something special  
I've always tried to live my life  
Aware that I'm infinitesimal

Compared to the rocks  
The mountains and the sea  
The continents of earth  
And all of the planets

You see the solar system's large milky way  
Large, too much exists, the universe is large  
For us to think that our problems are worth  
The problems we bring to this one chunk of earth
