"Flesh And Bone"

Visit "[Flesh And Bone](#)" on MotoLyrics.com

My world is all spring flowers
Underneath the autumn moon
Your arms around me carry
Away my heart like a lost red balloon

As long as I am flesh and bone
I will never find rest
There will never come a time
When I can finally resist

Too caught up in the world of pleasure
I'm carnal knowledge
Just lookin' for treasure of the flesh
Displayin' neurosis

Seein' all the crowds around
Has givin' me a psychosis
I'm crazy, makin' me lazy
My mind is all hazy

The things that you do, amaze me
Jealous of the fools that are all around me
Another heathen
That's never really found me
