SOS to the only  
Satellite to the one  
Lord I feel a little lonely  
On this side of the sun

SOS keep on trying  
Hope an answer comes soon  
Sometimes feel like crying  
On this side of the moon

SOS to an angel  
Satellite to the sun  
Way up high I'm calling  
And I'm not the only one

SOS I am sending  
Troubled times are passing by  
Rain and tears are never ending  
On this side of the sky

SOS to an angel  
Satellite to the sun  
Way up high I am calling  
And I'm not the only one

Where the wind blows  
Where the ocean flows  
Where the moonlit stars  
Get in line with Mars

SOS to an angel  
Satellite to the sun  
Way up high I am calling  
And I'm not the only one

Satellite to the sun  
Way up high  
SOS to an angel...
