Sometimes the moment comes and I wait for it to fade
And sometimes the stars are aligned
And give me a sign in the shape of her face

Chorus

Cause in this dark she shines a light
I'm wondering if she can feel me here tonight
Cause in her eyes I find my satelites

Wading in a sea of friends and my words remain
unsaid
And brighter days nine steps away
If I can stay out of my head

Chorus

[guitar break]

Cause in her eyes I find my satelites

Chorus

Cause in her eyes I find my satelites
