Did you realize that December 8th that the energy
started to fade
A life created from what was in your mind
That would never come to take place
Learned while retrieving a sad song
Felt by receiving what?s felt all along

Did you recognize the pattern that was there
Shifted toward today
It matters to what is taking place
In the promise of all things

Learned while retrieving a sad song
Felt by receiving what?s felt all along
Learned while retrieving a sad song
Felt by receiving what?s felt all along

Take this it was mine
How could you say this wasn?t for me
When all I did was turn my back and walk away
