I'm the biggest hypocrite that I know, I've ever known
You call me selfish
A shellfish too much to deal with
And I don't get out much
And I don't get out much
And I don't get out much
And I don't get out much
It's getting hard to know who I really am.
Who I really am
Quick blink turn yellow into red 5 placed on black
square and I'm late again
Too bad, your face, as it waits inside can't fake much
more as it breaks inside.
Sick of being late again.
Sick of being late again.
Sick of being late again.
Sick of being late again.
You're the biggest liar that I know I've ever known
You call me selfish your the most selfish person that
I've ever know
And you don't get out much
And you don't get out much
And you don't get out much
And you don't get out much
It's getting hard to know who I really am.
Quick blink turn yellow into red 5 placed on black
square and I'm late again
It's too bad, your face, as it waits inside can't fake
much more as it breaks
Inside.
Sick of being late again.
Sick of being late again.
Sick of being late again.
Sick of being late again.
