I try you try
Is just not time
The siance between us
Is keeping us from where we wann be
But one day you'll see
You'll be happy
Cause I know in my ehart this love
It's gonna last always and forever
Even though we are not together
Phone calls
E-mails
Texting
Skyping
I wish we could spend each moment physically
Cause it's so difficult
Having to be alone
Girl just know I am holding on
And be there when I come home
Cause I love you
Always and forever
Even though we are not together
Girl I promise you
And you promised me
Always and forever
Don't you believe in our love baby?
Don't you believe we can do it girl?
A few more months and I will be there
You promised me
So don't go nowhere
Don't you believe we can make it work?
Baby don't leave I don't wanna hurt
You said you never stop being in mind
No matter the circumstance or time
What happened to
Always and forever
Even though we are not together
I promise you
And you promised me too
Always and forever
She called and told me
We can't be we are too far apart

She said I am waiting
She found a new man
Make plans she's moving
Hung up the phone
Damn she is gone
We promised each other that we will always be there
Promised each other that no matter how far
We will always love each other
I guess
Forever don't last too long
I guess this ain't no love song
This ain't no love song
