

The Explosion

"Always There"

Visit "[Always There](#)" on MotoLyrics.com

Why was it you I don't understand
And nothing shows me why
Maybe someday I'll see you again
And tell you how much i've missed you

Things happen and no one knows why
If I'd erased this moment in time
If I'd know i would be by your side
If I'd known I would of said goodbye

CHORUS:

You were always there
Even though it seems your far away
I miss you more than words
I'm missing you more everyday

Where are you in my life
Where's the song in my heart
Where's the peace of my mind
And the strength for me to carry on

We will all move on
And you will always stay in our heart
And any minute that passes by
We wont let the memory fade away
Time will heal a little everyday

(CHORUS)

Then the something's fade to nothing
And the reasons gone
Life must go on
Days will pass by
Tears will find happy memories

(CHORUS)
