Oh girl you just something else  
You got me feeling I myself  
All in a place a million faces  
I can see nobody else  
[?] of my element  
A feeling almost had and said  
It's like you release me from shelve

[Chorus:]  
And I like it  
I am not the same tonight  
You changed me  
I've transform  
I am out of the norm  
You introduce to me  
Another part of me  
Me me me  
Another part of me

Who is this guy  
I can't recognize  
A new me  
Girl I am so alive  
But underneath it al  
Was me in a new disguise  
I resurrected the beast inside  
Girl I am about to lose my mind  
So brand new like a debate

[Chorus]

Check 1 check 2 check 3  
Girl you showed me  
Another part of me  
[Repeat]

[Chorus]
