High place outside.
You wish you could be
Far from all this.
Black out before fists.
Make out more lists.
Was it right?
I couldn't tell.
That place inside you wish could see
Close to all this.
Black out before fists.
Make out more lists.
Was it right?
I couldn't tell.
Why was it right?
And how did it go away?
Why did it hide... too far?
I wasn't right.
That place outside you wish could see
Far from all this.
Black out before fists.
Make out more lists.
Was it right?
I couldn't tell
