

## The Explosion

### "Broke My Heart"

Visit "[Broke My Heart](#)" on MotoLyrics.com

What's that you're saying when you're talking to me?  
The feeling's changing why can't you see  
You say it's over, well I don't care  
You say you're sorry but life's not fair

You broke my heart yeah yeah yeah  
That's what you're saying yeah yeah yeah  
And now you're sorry yeah yeah yeah  
That's what you say yeah yeah yeah

And now you want for me to believe  
That we were not meant to be  
You said it was over, before it could start  
You said you're sorry, but you broke my heart

What's that you're saying when you're talking to me?  
The feeling's changing why can't you see  
You say it's over, before it could start  
You said you're sorry, now you broke my heart

What you say is what you want to believe  
You say that we're not meant to be  
You think you're cool but I really don't think so  
Just go away
