The seductive charm of innocence
Rapes your train of thought
A callous web of entrapment
The blind lead the blind... you know what I mean
Well i'm here to tell you
We must fight.. it's time to arrest the cold steel
And plunge it deep into their hearts

Repel the kiss of Judas
Our day of judgement is now
Asphyxiate the cancer
Piece by piece
We shall not run nor hide
We move in the silence of night
From the corners of this world we ride
Victory or Valhalla we ride

Our hate is justified
In awe their faces bleed
No bounds will break thy will
Chaos beyond belief

GLORY AWAITS...
GLORY AWAITS US
GLORY IS AT HAND!

Chaos bringer
