Don't wash your hands of me  
I am your family  
Of all the moments in your life this could be the one  
It could be your destiny  
So don't wash your hands of me  
When you look in my young brown eyes  
You can see for a hundred years  
I don't need you to feel my pain  
I just need you to know my name  
So don't wash your hands of me  
I am your family  
I'll leave your kiss here upon my face  
This is how you have shown me grace  
Walked with me in these streets of dirt  
Through the poverty, through the hurt  
Don't wash your hands of me  
I am your family  
I am innocence and I am truth  
I am chasing the car as you leave  
I have shown you what I could not say  
This is my prayer, if you must go away  
Don't wash your hands of me  
We are your family  
Of all the moments in your life
