

The Explosion

"Encompass Me"

Visit "[Encompass Me](#)" on MotoLyrics.com

Take your time
This is just a fragile state of mind
It's something that you've never seen
Don't roll your eyes back
Look straight ahead
Lets catch us a glimpse
Take time take in the moment
As if we've never felt alive

Encompass me and let us sing,
We are the lost and found tonight.

Say goodbye to everything you thought was your life
It's complex beyond, complex beyond the reach of your
mind
Hold your head up
It's what you need to keep the glimpse alive
Don't stop! Don't stop trying!
Take time take in the moment
As if we've never felt alive
Take time take in the moment
As if we're never gonna die
Open your eyes,
Relax your body,
Let the music take you.
