We stayed up all night long
Playing our favorite songs
It felt like nothing could go wrong

Running on adrenaline
Looking out taking everything in
The sounds and the writing on the walls

[Chorus]
Why
Can't every night be like tonight?

Nowhere else i'd rather be
I've got everything i need
In a world of unconventionality

It's 2am and i'm wide awake
Things to do and rules to break
Anything goes
Because it's all just rock n roll

[Chorus]
