"California Dreaming, are you living today! ?"
Or better "made in California"
Now I wanna tell you about my situation and fu*k the
O.C. Dream,
Poser Bands change your plans
Why in your lyrics you illustrate these lands, maybe
you've never been! ?
If I scream on the main street my last travel on the
planet atmosphere
Explain your choice, and learn from fathers
I love my descent a lot... Piadena e parsciott
My English is not a pose (my Engl. sucks) but a need
'Cause I wanna teach my foods to all tha European
friends...
So how long is this interview, I would take a break and
eat some chips...
Tortilla Chips
Give me the way to ask you about this
I know that I can't satisfy you try again please
Do you believe 'bout these fuckin' words, or I'm a label
victim toy! ?
An Interview to publish wrong, 'cause I don't pay your
magazine at all
