Ah, smoke people for did it, big money I'm with it
I'm smoke me good, you can smell it though
I got hella dough, come get it
When you hot the hoes come with it
They drop it low and spit it
The pretty back up, make you clap young
She's picture and I just hit it
Poe get off my fitted, polo horse I'm jiggy
You ain't gotta ask she did me,
Of course she did, I'm witty
I'm a product of my city, that 2Pac and that Biggy
My jewels pop me that pretty,
And I'm shoe boxing that kitty
Dog I'm too hot to fuck with me
I chamber you, unfameable, untamable
Made a name for blue,
I think I know something on making the 2
Break the beat but I came to do
Bbs is my chain is blue
Them niggas them got you gased up
Too much of that propane in you
My diamonds bright all kinda white
Rap jj, I'm dynamite
Niggas still writing them dis raps
Hating's lame and I'm not the type
Sleep on me let the mag pinch you
Please nigga, your swag simple
My flow hot as my last bitch
She a wreck now, her ass crippled

[Hook]

I think I found the beat to find my way, yeah, yeah
I need some pussy but 2 times a day, no, no
You ain't gonna trap me, it ain't no trap for Max, go, go
Girl turn your ass around and bring it back
Come here baby we them nigga you won't be standing
by
I'm there I'm standing on something, so hold your
cameras I
I got that street sound I'm getting to it and I'm fly
Everything I got is sick, illest man alive

Hottest nigga in my city, ain't no way that I could
possibly chill
Illest nigga around, that's one hell of a hospital bill
Can't seem to find my top, piffy boy want proof listen
Hello, 911, I'd like to report my roof missing
Last seen on my Lambo coup, look sick in the... suit
Bet your man ain't got these, I don't think you wanna
gamble boo
Studio on my hoot shit, true religion and bamboo hoops
Laying back, coming up with shit,
She give me head while the sample loops
Pussy on that logo, call my rarri polo
You obviously love my all hoes, new meaning for yolo
All you niggas gonna learn today
I'm the teacher, I'm the tutor
Few ray allens, couple of cuties
And by ray allen I mean the shooters
Serious as a heart attack, your girl say she ham groovy
Curious as a white girl, like heads on in a scary movie
Don't get in that car girl, last time you gonna hear from
her
Lost his bitch I bring her back
Like next time be more careful bro

Everything I got is sick, illest man alive

Old money's my lady, new money's my baby
Pick cup getting licked up
By 2 bitches I'm lazy,
If it's 2 trips I want 80, these cool kids doing crazy
You rocking with the most shady
Keep tools gripped in in gravy
All I know is looking in...
She probably gonna touch all us
I'm in my own zone, my flow's grown
I need my... on a short bus
Watch me hit my number again
I melt that... I come to win
... home boy I got pumpkin skin, that mean shit don't
get to me

My bitch don't care bout other names, she just want no
tiffany
... speed boat trips I'm sick of sea
I asked her for some bum head, she sold me no
diggidy
One love to my family, you don't look like no kin to me
Back here like the wimbledon, she's going up my
energy
So much soul I'ma live again,
A girl in a crib of 10
Play games I kick your ass out, put that on my
timbaland
