She married Satan when she was 17  
And became a part of his doomsday machine  
But even with the devil she tried to play games  
She got sentenced to raise hell on earth  
Of she's out on a mission she acts like a nun  
Althiugh she murders & rapes for fun  
She guards the seven gates of hell  
And recruits the fools who have souls to sell  
She was a mean Halloween queen, she's ugly & mean  
A Halloween queen, she's wild & obscene  
A Halloween queen  
Her rotten body stinks & bleeds  
Except for those parts she really needs  
And as an evil nightmare she disturbs your dreams  
The look in her eyes is like laser beams  
Meeting her is like flrting with death  
Don't screw her 'cause she'll take your breath  
Once she has fucked you, she tears your heart out  
And squeezes your goddamn brains apart  
She was a Halloween queen, she's ugly & mean  
A Halloween queen, she's wild & obscene  
A Halloween queen  
She ain't human this Halloween queen  
Death dwells around the places she's been  
She kept on flirting with demons & gods  
Young children & nicely built briads  
The bad - minded & power - blinded  
Are all those she gave birth to  
She's surrounded by a thousand haunted  
Her next victim might be you  
She was a Halloween queen, she's ugly & mean  
A Halloween queen, She's wild & obscene  
A Halloween queen
