I'm sitting here... great...  
And I'm thinking about everything  
I would hate to say it plus a waste of time  
But it seems like you game  
On up, on us  
Girl is this quickly as you find love  
It could have been love or maybe it was rushed  
Or maybe I just wasn't good enough  
I can't say the same about my feelings  
I just feel it like you aren't feeling the same  
In a matter of time you let me to believe  
I was yours and you were mine, so how could you leave  
me  
How did we go from everyday phone calls  
To us not even speaking at all  
How did we go from me and you  
Everyday that you been in my head  
How did it go from good to bad  
How could you walk away  
How did I go from being... to your head baby  
How did we go from everyday phone calls  
To us not even speaking at all
